CURRENT POSITION	Carnegie Mellon University, Machine Learning Department , Pittsburgh, PA July 2024 - present Postdoctoral Researcher, Advisor: Prof. Pradeep Ravikumar
EDUCATION	Rensselaer Polytechnic Institute , Troy, NY May 2020 - May 2024 Ph.D. in Electrical Engineering, Advisor: Prof. Ali Tajer <i>Dissertation: Causal Learning via Interventions: Estimation and Design</i> Rensselaer Polytechnic Institute , Troy, NY August 2018 - May 2020 M.S. in Electrical Engineering Bogazici University , Istanbul, Turkey September 2013 - June 2018 B.S. in Electrical & Electronics Engineering
RESEARCH INTERESTS	My research centers on the intersection of causality and machine learning. The overarching goal is to develop a methodology that models our world through a causality lens, capitalizing on shared causal mechanisms across diverse data environments. To achieve this, I use the language of <i>causal interventions</i> in a wide range of problems, including but not limited to unsupervised representation learning, causal structure learning, and the design of sequential interventions. More recently, my emphasis has been on causal representation learning from interventions, and exploring its potential applications.
